

COLORGLAZE RED 3

Cold-use mirror glaze, ready to use, in a vivid red shade.

COLORGLAZE Red is the perfect glaze to make an impression at first glance.

A bright, lively red that's ready to use and ideal for single portions, cakes, and petits gâteaux. Applied cold, no heating required, it ensures smooth, even, and glossy coverage. With a neutral taste that enhances without overpowering.

DIRECTIONS FOR USE

Take the necessary quantity of glaze from the bucket and mix with a hand blender until smooth and fluid, without englobing air. Take the sweet from the freezer (18/20°C), eliminate any surface frost, and place it on a proper grate. Cover with glaze using a spatula if necessary and remove the excess icing with a light vibration of the grate. Store in the refrigerator or in the freezer, as needed.

If a blender is not available, mix gently with a spatula, still avoiding air incorporation.

For better fluidity, you can heat the icing in the microwave up to 33/35°C or add water to the icing up to a maximum of 5%.

TECHNICAL DENOMINATION

semi-finished pastry product for decoration.
