Knead for 5 minutes until the batter is not very smooth. Refrigerate for at least 2-3 hours, then flatten to a thickness of about 2 centimeters giving a rectangular shape. Place on a half of the "700" batter of "technical" butter thrown out of the refrigerator about 2 hours before. Cover the butter with the other half of the "batter" and seal the edges well. Smooth out the dough by bringing the dough to a rectangular shape and to a thickness of about 2 centimeters, bend to 3. Without giving any rest, roll out the dough again and fold it to 4. Cover with a plastic sheet to avoid drying and place in the fridge for at least 1 hour, then repeat a fold at 3 and one at 4. Let it rest in the refrigerator for at least 1 hour (well covered with a plastic sheet), spread the dough to the final thickness of about 2-4 millimeters, cut or cut in the desired shapes and leave to rest on baking sheets with baking paper before baking.

Cook the dough on a perforated baking sheet and micro-perforated carpet, place another sheet and baking sheet and cook under pressure. Bake at 170 ° c ventilated oven. Once the pastry is cooked, dust the BRILLO and heart to caramelize at about 220 ° C. When the pastry is still hot, brush it with melted cocoa butter.

Once the dough has cooled, cut 14x5 cm rectangles.
