FINAL COMPOSITION

JOYPASTE VANIGLIA MADAGASCAR/BOURBON

Cut the pistachio cake to obtain a drop shape, slightly smaller than the ring where the croissant will rise.

cut small strips of dough 0.5 cm wide, of the dough with 2 folds in 4 and with the green dough on the surface.

arrange them, lying down, on top of the dough with folds one by three and one by four, until it is completely covered.

roll out the dough to 3mm in a sheeter so as to always have the strips perpendicular to the rollers, and therefore lengthening them and not widening them

cut 8cm x 13cm rectangles

wrap the pistachio cake in it and leave to rise at 26 degrees in the previously buttered drop rings, until completely leavened

cook at around 140 degrees, to preserve the colour, for around 25 minutes

once cooled, fill from underneath with the namelaka and exotic caramel
