## DIPPING

### INGREDIENTS

COVERDECOR WHITE CHOCOLATE	g 120
SINFONIA CIOCCOLATO CARAMEL ORO	g 280

### PREPARATION

Melt the coverdecor white at 50 degrees, add the sinfonia caramel oro in tempera and dip the panettone

### FINAL COMPOSITION

Once leavening is complete, leave the panettone exposed to the air for 20-25 minutes so that a skin forms on the surface.

-With a sharp knife, make two superficial incisions forming a cross (the cuts to be made on the surface of the panettone must not be too deep and are necessary to give the finished product its characteristic and traditional shape).

-Cut the four edges under the skin and insert a small knob of cold butter in the center of the panettone.

-Cook at 165-185°C for variable times depending on the weight (approximately 35-40 minutes for 500 gram panettone, 50-60 minutes for 1000 gram panettone), until reaching 93-94°C at the core.

-Upon exiting the oven, turn the panettone upside down, using the appropriate panettone turners.

- Freshly baked panettone must be left to cool upside down for 8-10 hours before packaging in moplefan bags.
